

### Baby Boom Continues

By BERNICE KEEVES

The nursery on the second floor of Memorial Hospital presented "No Hope and To Hope" this October. As the crib capacity is twelve, with one incubator for premature, we readily emphasize the "No Hope" the average number of infants per day being seventeen. The additional five babies then placed in incubators cleverly contracted from drawer drawers in the bed by the nurse on duty.

Names beginning with "A" were another among the first arrivals. They were Milton Otwell John, Richard Keith James Justin Ann Johnson and Richard George Jensen, Jr. Following their birth nothing unusual happened until the sixth when the lovely Flowers in girl brightened the nursery.

On the eighth day Joseph Michael Hopkins kept the nurses and hospital in the morning. For those interested in superstitious, Jim Clyde Lee, Thomas Williams Walters and Donna Kay Chandler were born on Friday the thirteenth.

The Deager girl number one and two elapsed the twentieth day and everything was serene until Mia Fry arrived on the thirteenth, with her violent outbreak of purplish emotion of which became most mad when she uttered that sacred word: "Infants received the same attention the day. And the same day unusual happenings in our nursery for the month of October. The total was 79 babies.

List of births are:

- 1—Claudia Jean Goolbsy, Milton Otwell John
- 2—Richard Lynn Cravy, Richard Keith James, Nancy Ann, Melvin Eugene, Judith Ann Johnson
- 3—Richard George Jensen, Jr., July Lucille Daphne
